Institutional Distinctiveness

The vision of the Institution is, “To be an Academia that will transform lives by encouraging human Endeavour and have an impact on the youths of the region by bringing them into the ambit of the contemporary national learning scenario. To embrace the traditional wisdom and value-system of the country as its founding principle and side by side try to inculcate the modern and scientific outlook amongst the learners as well as in the surroundings they belong to.”

Our vision as highlighted above is to bring the rural youth into the ambit of higher education and encourage them to aspire higher. It is our mission to prepare our students for the demands of the fast changing job market. The College is situated in a rural and educationally backward area.

Therefore the major challenge in this College is to inculcate knowledge and aspiration in students who are mostly first generation learners from weaker sections of society, both socially and economically. Many students have to contribute to family income or they have to engage in activities like farming or help in other household work. It is indeed a difficult task to orient these students to the demands of higher education or the requirements the modern job sector. The dedicated teachers of this College have been striving continuously to this end. As a result of our efforts, many such students from poor households have secured jobs and many have progressed to the post-graduate level. The main goal of the college is to inspire the students, the future citizens of the country, towards acquisition of required knowledge and skill so that they can go for higher studies or for placement, as required. Students are provided with all sorts of opportunities required to identify and flourish their inherent qualities, so that they can develop themselves as complete human beings and play positive role of a responsible citizen.

Further, the students from these socially and financially backward families are brought into the ambit of several scholarship schemes introduced by the Central Govt. and the State Govt. for providing encouragement to students from such families. The College authority ensures that eligible students receive their due financial assistance from these schemes. The teachers and non-teaching staff assist students in making the students aware of such schemes, in filling out forms and so on. At present hundred percent eligible girl students have received the State Govt. funded Kanyasree scholarship through our College.

Thus by providing quality education and by encouraging the students to study further by availing scholarship schemes from different Govt. and non-Govt. sources the College strives to inspire its students towards self development.
